

How to Personalize your MLTI Apple ID

Your Apple ID is the key to many services with your iPad. Please take care in creating and remembering the name and password you select, and other information.

Requirements

Please use the provided iPad with the temporary Apple ID to personalize the Apple ID. If you are receiving a MacBook Air and have not set it up, please personalize your Apple ID first with the iPad.

If you are under thirteen please make sure a parent or guardian is present to complete the personalization. Your parent or guardian will need an email address.

Preparation

- **Select a unique username.** The name selected must be unique amongst all of MLTI. This will be part of your login name for your Apple ID. The second half will be @mlti.net.
 - Examples:
 - steve@mlti.net - Not unique
 - smith@mlti.net - Not unique
 - jappleseed@mlti.net - Unique
 - jappleseed1970@mlti.net - Unique
 - jappleseed2000@mlti.net - Unique
 - Notes:
 - Students under thirteen can not change their username after completing the form until they are thirteen.
- **Create a secure password.** The password must be at least eight characters long. It must also contain one capital letter and one number. If you have an existing password for other services that meet these requirements you can use it here too.
 - Examples:
 - blackbears - No capital letter, no number
 - BlackBears - No number
 - BlackBears10 - Secure
 - BlackBears10! - Even more secure because it contains a symbol
- **Select a rescue email.** This can be a school or personal email address. This email address will be used in case you forget your password. You need to verify this email address as soon as possible.
 - Students under thirteen will be required to put in a parent's email address. The parent's email can be used to help reset a password.

Additional Information

- Remember what you enter for your birthdate and security questions. These are both used in the event that you forget your password.
- If you do forget your password you can visit iforgot.apple.com to reset the password online. You can also visit apple.com/support and have AppleCare call you to assist with a password reset.

Personalization Steps

1. Visit mlti.net on the iPad provided and tap your age group.

Personalize Your Apple ID

To begin using your iPad, you or your parent will need to update the Apple ID associated with the device assigned to you by your school. This information needs to be updated as soon as possible to begin using iCloud and other services.

How to Materials (opens in a new tab):

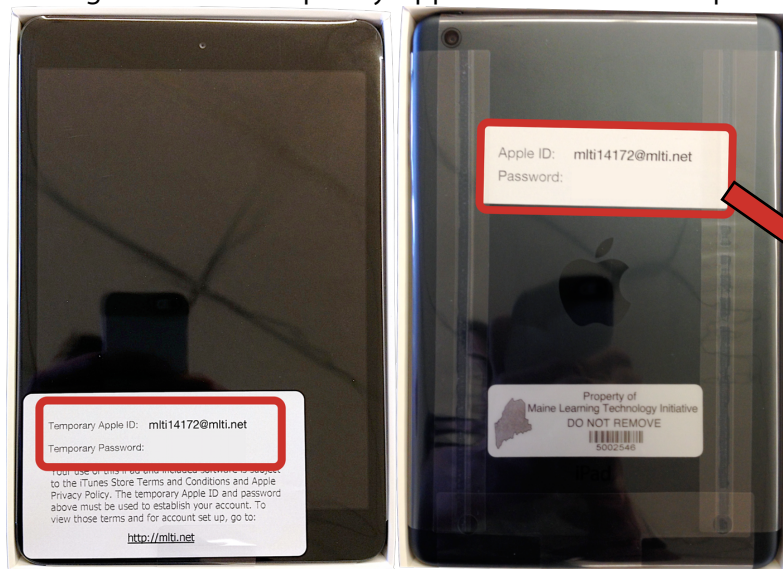

To update your Apple ID, please select one of the following options:

I am under the age of 13

I am 13 years old or older

2. Login with the temporary Apple ID located on the provided iPad.

My Apple ID

Get Started

Enter Temporary ID and Password

Your Temporary ID and Password is provided by your school district. If you do not have this information, contact your administrator.

Create an Apple ID

Choose an Apple ID and Password

This is the Apple ID and password that you will use to sign into your account. Please be sure to remember the password.

Apple ID: @mlti.net

Password:

Password strength: **strong**

Confirm Password:

Choose Security Questions

Choose three security questions memorable to you. This will help us verify your identity should you forget your password.

Security Question 1: **Who was your favorite singer or band in high school?**
Answer:

Security Question 2: **What was the name of your first pet?**
Answer:

Security Question 3: **What is the name of your favorite sports team?**
Answer:

5:20 PM
edu-appleid.apple.com/student/update

Rescue Email Address

Give us a rescue email address where we can send you a link to confirm your identity and let you reset your information should any security issues arise. This address is only for communicating information about your security details. We won't send any other types of messages to this address.

Rescue Email:

Terms & Conditions

By creating this account, you agree to be bound by the following terms and conditions. Please read them carefully:

- [iOS Terms and Conditions](#)
- [iCloud Terms and Conditions](#)
- [Game Center Terms and Conditions](#)
- [iTunes Store Terms and Conditions](#)
- [Privacy Policy](#)
- [Apple Limited Warranty](#)

☒ I agree to the iOS, iCloud, Game Center, and iTunes Store terms and conditions, and the Privacy Policy.

4. Verify the rescue email (or parent / guardian if under thirteen) address as soon as possible. Your login will be the [username_you_selected@mlti.net](mailto:jappleseed1970@mlti.net) (ex: jappleseed1970@mlti.net)

My Apple ID

Account Created

Your Apple ID (jappleseed1970@mlti.net) has been created and is ready for use.

Important: Don't forget to verify your rescue email address.

We have sent a verification email to **jappleseed@school.k12.me.us**. Check for this email as soon as possible and follow the simple instructions to verify your email address.

Thank you, and have a great school year.

Thank you.

You've taken the added security step and provided a rescue email address. Now all you need to do is verify that it belongs to you.

The rescue email address that you gave us is just click the link below to verify, sign in using your Apple ID and password, then follow the prompts.

[Verify Now >](#)

The rescue email address is dedicated to your security and allows Apple to get in touch if any account questions come up, such as the need to reset your password or change your security questions. As promised, Apple will never send any announcements or marketing messages to this address.

When using Apple products and services, you'll still sign in with your primary email address as your Apple ID.

It's about protecting your identity.

Just so you know, Apple sends out an email whenever someone adds or changes a rescue email address associated with an existing Apple ID. If you received this email in error, don't worry. It's likely someone just mistyped their own email address when creating a new Apple ID.

If you have questions or need help, visit the [Apple ID Support site](#).

Thanks again,
Apple Support

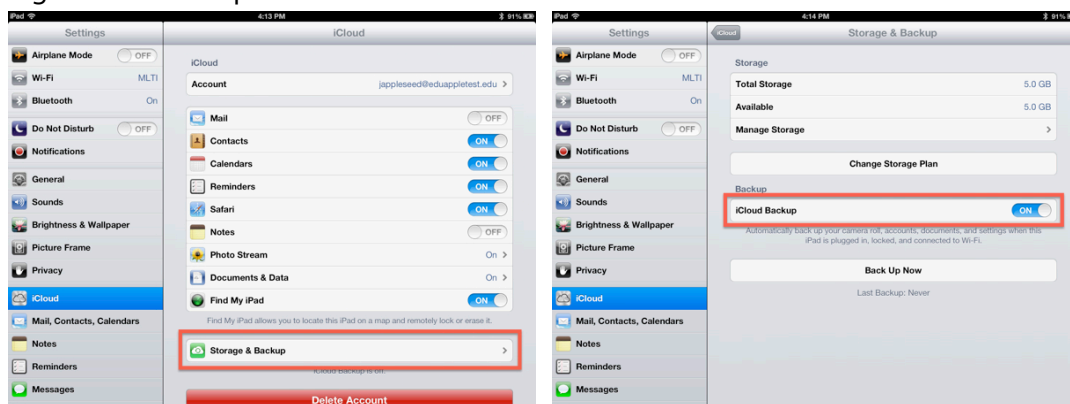

5. Open the Settings app and tap iCloud on the left. Sign in with your new Apple ID. Tap “OK” to enable Find My iPad.

- Notes:

- *Find My iPad can only be used by the owner of the Apple ID.*

6. While still in the Settings app, enable iCloud backup by clicking on “Storage & Backup” and turning “iCloud Backup” to ON.

7. While still in the Settings app, tap “iTunes & App Stores” and enter your Apple ID and password, tap “Sign In.”
